PROSPECTUS OF THE "NATIONAL MON-

UMENT,"

A weekly journal to be published in Washington,
under the sanction of the Washington National Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellan-sons paper. It will contain selections of the literature of the day—the best that can be found in American and English publications; interesting scientific articles-embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of adding in the erection of the noblecolumn new rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washisorow would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the effection of the M

Third Vice President; J. B. H. Smith, Treasurer; Geö. Watterston, Secretary.

Board of Managers.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blanden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlesey.

Terms.—The Monument will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarte form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the MONUMENT on the following terms: 3 copies for \$5; 5 copies, \$8; 10 copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Accept.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Agent,

without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

Austin's Magic Freezer,

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented Sep-

lce Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—
lat. The astonishing rapidity of the process, surpassing belief—hence the name.

21. The Cream during the progress of freesing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and instead manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, as student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the Village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Feiton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Decring's Latin Reader, Sallust or Cæssar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for pricare study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its initimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish, to pursue some particular branch which falls mere properly within the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars f

Mr. JAS. L. HAMILTON—DEAR SIR: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from the salutary effects which I have evited to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues, My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three of four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved effections, after the trial of a wast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

lish Common Law Reports.

By Hon. George Sharswood and George W. Biddle, Esqrs. 1 vol. 8vo.—35 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

CAMBRIDGE, January 25, 1845.

Messrs. T. & J. W. Johnson:

-In reply to your letter, I can with great sincerity say, that I entertain a very night opinion of recent Exchequer Reports. In my judgment they are not excelled by any cotemperaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.
Gentlemen: Your letter of the 24th has been received Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Frice downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nist Prius, Archbold's Landlord and Teaant, Crabb on Real Proporty, Smith ou Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

WILMINGTON BOARDING SCHOOL
ONE OF the healthiest parts of the city of Wilmington, entirely beyond the sottled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-cight years, very few cases of serbius indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physicology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Lasquages. Farticular attention is paid to the higher Mathematics and their application to Mochanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the institution will compare favorably with any similar one in the country. A carefully elected library of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter, while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

THE EISTIMONY OF ONE OF OUR LAWYERS.— REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of 947 acres of land, in from two and a half to four miles of Brentwille, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentwille this year. This land is well adapted to the growth of wheat, corn, rye, cats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capsible of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will soil it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$8 to \$8 per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carringe-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my, price for this property—on the same terms as the land. It is within a mile and three-quarters of the railroad.

Thirdly. Nine and a quartor acres of land on the turn-pike, just above Buckland, on which are a good dwelling-house, a large wheelwright shop, kitchen, stable, dairy, and smoke-house. It would make a good tavern stand, and the shop a good stable. For this property I will take \$500—on the same terms as the la

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT, March 14, 1851.

To being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the next of the Pastmester General, for the time height. on the part of the Postmaster General, for the time being to extend and continue the contract in force for an addi-tional term of four years, by giving to the contractor written notice to that effect, not more than nine nor les

With a view of procuring the best lock at the lowe price, no kind of lock is prescribed as a standard With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of dispincing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the dura-

new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department; if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fighil faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the leck of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and ke

Letter from the Hon. Henry Clay.

Ashian, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchante' Magazine and Commercial Review, from viewing 'your portrait in the beginning and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to joiness all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have inc, if I may not speak for them) under those obligations; and the number of your numerous readers (at least you have inc, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have filling.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my numble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earls, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Milard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in asying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numb

Latter from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the information the pursuit of his fusions and the elevation of the mercantile character requires. Nor is its utility at all confined to merchanic, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Yery respectfully, sir, your obedient servant, "THOMAS R. BENTON.

COLD SPRING WATER CURE. COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffale, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffale to the surjent system in surface.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messra. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Magara foring majestically towards the Falls, extensive foreste, and the Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldiness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

eventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N.-Ya, the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Mise Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwearied pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. An enlightened public sentiment has everywhere repu-

of the various forms of diseases, and constructed on a cale not inferior to those of any other establishment. In this country.

An enlightened public sentiment has every where repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropanic, or a scientific use of water as a restorative and curative great, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of tirrigging, depleting, and canterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Gure establishments in this country, to say nothing of any other, has fully commined the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is desired similarical to say, that the "Cold Spring Water Cure" will compare avorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and destrablishess of its arrangements. The institution is now open for the reception of patients, and in full operation.
